SELF FEED DRILL BITS

DESCRIPTION

DeWalt Self Feed Drill Bits are the go-to solution for anyone seeking rapid, clean, and precise hole drilling in hardwood, softwood, wooden boards, and plaster boards. Compatible with both corded and cordless drills, these bits boast an 11mm anti-slip shank, ensuring stability during operation. What sets these bits apart is their threaded pilot point, which effortlessly guides the forstner bit through the material, enhancing accuracy and efficiency. Each bit includes a replacement pilot drill and allen key, for your convenience. When you need dependable performance and versatility in your drilling tasks, DeWalt Self Feed Drill Bits deliver every time.

SKU	BARCODE	DIAMETER	CUTTING LENGTH	OVERALL LENGTH	SHANK	WEIGHT
