END CUTTING NIPPERS

KP68 SERIES

DESCRIPTION

The Knipex End Cutting Nippers excel as indispensable tools in reinforced concrete work, boasting a head shape meticulously designed to enhance maneuverability while tightening steel mesh knots. Equipped with cutting edges tailored for both soft and hard wire, these nippers prove versatile, seamlessly transitioning between tasks such as twisting and cutting binding wire. The cutting edges undergo an additional hardening process, achieving a remarkable hardness of approximately 61 HRC. Crafted from high-grade special tool steel and forged with precision, these nippers epitomize durability. Their multi-stage oil-hardened construction ensures resilience, making them reliable companions for professionals in construction and related fields.

SKU	BARCODE	DIMENSIONS	CUTTING CAPACITIES			CUTTING EDGE LENGTH	WEIGHT
			(SOFT WIRE)	(MEDIUM HARD WIRE)	(HARD WIRE)		
KP68-180	4003773011682	180 x 52 x 15mm	Ø 4mm	Ø 3.2mm	Ø 2.5mm	29mm	284g
KP68-200	4003773011699	200 x 50 x 16mm	Ø 4mm	Ø 3.5mm	Ø 2.8mm	31mm	319g
