HEAVY DUTY ADJUSTABLE WRENCH

IG771-30

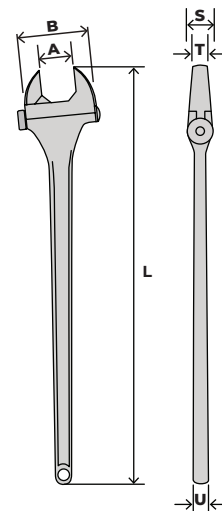

DESCRIPTION

The Irega Model 771 Heavy Duty Adjustable Wrench is the ultimate tool designed to conquer the toughest tasks in industrial, petrol, mining, and metallic construction fields. Crafted from a single piece of chrome vanadium steel, it boasts unparalleled strength, minimal wear, and exceptional durability. The wrench features a metric measurement scale on its jaws, enabling effortless presetting and precise sizing of nuts, bolts, and pipes. Exceeding UNE 16532, ISO 6787, BS ISO 6787, ASME B107.100, and DIN 3117 standards, this wrench is manufactured to the most rigorous international benchmarks. Proudly crafted in Spain, it embodies top-notch quality and reliability.

FEATURES

- Designed for heaviest industrial tasks in mining, construction, etc.
- Forged in one single piece of chrome vanadium steel.
- Great resistance, minimum wear, unbeatable durability.
- Jaws with metric scale for easy nut and bolt sizing.
- Manufactured to exceed global standards.
- 100% made in Spain, ensuring premium quality.
