MULTI-FIT GROMMETS

PT9241

DESCRIPTION

Thick or thin, these grommets lock in! Plumtool Multi-Fit Grommets boast a push-to-lock mechanism, ensuring secure placement in metal studwork. Designed to accommodate various thicknesses ranging from 0.42mm to 2mm, these plastic grommets effortlessly fit into a 34mm hole. With a generous package of 100 pieces per bag, this patented design not only delivers convenience but also complies with Australian standards, ensuring reliability and safety. Plumtool Multi-Fit Grommets redefine versatility and efficiency in construction projects, providing a reliable solution for professionals adhering to stringent standards. Pair with the Plumtool PT1914 Stud Punch to quickly punch 34mm holes in metal studwork.
