POCKET COMBINATION SQUARE SWTC130

DESCRIPTION

The 150mm/6" Pocket Combination Square from Swanson stands out as one of their most sought-after squares. This versatile tool boasts CNC machined working surfaces, ensuring reliable accuracy, along with 45° and 90° marks. Unlike less durable tube-type vials, it incorporates an impact-resistant acrylic level vial that surpasses expectations. Acting as both a square and a depth gauge, this 6-inch workhorse offers exceptional functionality. Its precision machined die-cast zinc body and hi-impact composite head guarantee durability. The spring-loaded brass bolt ensures firm and accurate settings, while the etched stainless steel blade exudes precision. Additionally, it comes equipped with a screw fit brass scribe and an impact-resistant acrylic vial with 1/8", 1/16", 1/32", and mm scale gradations.

FEATURES

- Precision machined die-cast zinc body.
- Hi-impact composite head.
- Spring loaded, brass bolt assures firm, accurate settings.
- Etched Stainless Steel blade.
- Screw fit brass scribe and impact resistant acrylic vial.
- 1/8", 1/16", 1/32", and mm scale gradations.

BARCODE: 038987001307

LENGTH: 152mm (6")

WIDTH: 88mm

DEPTH: 15mm

BLADE WIDTH: 20mm

BLADE THICKNESS: 2mm

BLADE MATERIAL: Stainless Steel

BODY MATERIAL: Die-cast zinc

GRADUATIONS: 1/8", 1/16", 1/32", mm

WEIGHT: 156g
