

PRODUCT INFO
CENTRE PUNCH
FAICP18SH

DESCRIPTION

The Faithfull Center Punch is a precision tool designed for accuracy and stability. Its square head offers a larger striking area, making it easier to create precise marks on various materials. This design also prevents the punch from rolling when placed on a workbench, ensuring safety and efficiency. Crafted with meticulous attention to detail, the punch is carefully hardened and tempered, enhancing its durability and longevity. The 90-degree ground point adds to its precision and versatility, allowing for clean and consistent markings. With a length of 100mm (4in) and a diameter of 3mm (1/8in), this Faithfull Center Punch is an essential tool for craftsmen and DIY enthusiasts seeking precision and reliability in their work.
