

## PRODUCT INFO

# STRAIGHT JAW TONGUE & GROOVE PLIERS

### DESCRIPTION

Channellock Straight Jaw Tongue & Groove Pliers are built to last with a Permalock fastener to prevent nut and bolt failure and a reinforcing edge to reduce stress breakage. Featuring 90-degree laser-hardened teeth for a stronger, longer-lasting grip in both directions, these pliers are forged from high carbon U.S. steel and coated for rust prevention. The undercut tongue and groove design prevents slipping, while the Channellock blue grips provide comfort. Made in the USA.

CODE	BARCODE	OVERALL LENGTH (A)	JAW LENGTH (B)	JOINT THICKNESS (C)	HANDLE SPAN (H)	NO. OF ADJUSTMENTS	JAW CAPACITY	WEIGHT
