

PRODUCT INFO

HEAVY-DUTY FLICKER MACHINE

FAIFLICKHD

DESCRIPTION

The Faithfull Heavy-Duty Flicker is a robust and reliable tool for professional wall coating applications. Crafted with a sturdy plastic body, this hand-operated sprayer is designed to handle the demands of trade use. Whether you're working on interior or exterior walls, this tool is up to the task, making it ideal for applying Tyrolean and roughcast materials. What sets it apart is its adjustable ratchet pressure bar, providing 12 distinct pressure settings, allowing you to fine-tune the texture to your precise specifications. With this feature, you have complete control over your texturing needs, making the Faithfull Heavy-Duty Flicker an indispensable companion for any serious tradesperson.
