

PRODUCT INFO

STRAIGHT AVIATION SNIP

MW6716-S

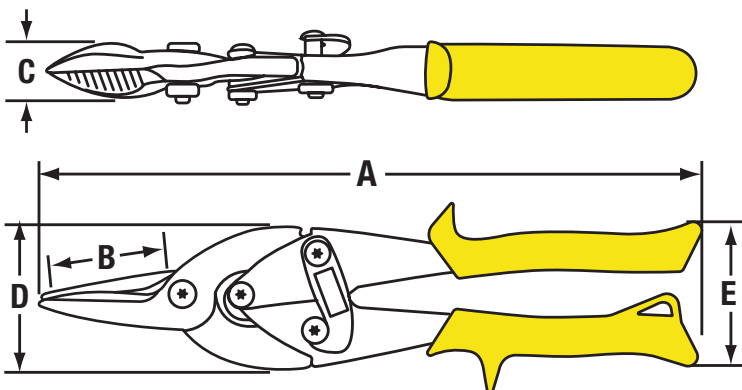

DESCRIPTION

MIDWEST® Straight Cut Aviation Snips are ideal for trimming metal and other sheet materials. Used for cutting straight or wide left and right curves. Use in either hand. These snips feature GLIDETECH® FORGED BLADES: unequalled strength, longest lasting edge life, and the most precise cutting action. Blades are hot drop forged of molybdenum alloy steel and Austemper® heat-treated to best accept and hold their precision ground cutting edge. Blades cut complete from “pinch of the blades through their points” and pivot on a Grade 8 bolt that is threaded and affixed into the bottom blade keeping blades in precision adjustment, and if ever necessary, allowing them to be readjusted extending peak performance. Equipped with KUSH’N-POWER® (US D718,602, D719,808) compound leverage handle action which multiplies handle force while providing a soft, sturdy and comfortable grip. Made in USA!

Cutting Capacity:

18ga cold rolled steel, and 22ga stainless.

BARCODE: 727226130686

OVERALL LENGTH (A): 254mm

CUTTING EDGE (B): 34.9mm

JOINT THICKNESS (C): 20mm

JOINT WIDTH (D): 57mm

HANDLE SPAN (E): 50mm

COLOUR: Yellow

BLADE PATTERN: Straight

WEIGHT: 390g
