T.C.T. COUNTERSINK

SM14TCT SERIES

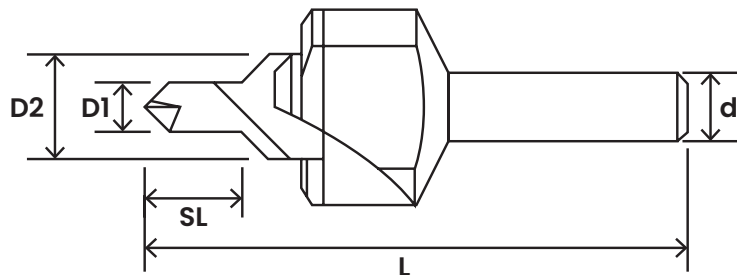

DESCRIPTION

The STAR-M T.C.T. Countersink is a versatile tool designed to streamline the process of creating screw holes. With its special Tungsten Carbide Tipped blade, it excels in both pre-holing and countersinking in materials like hardwood, fiber cement, and gypsum board. This countersink tool ensures precision by incorporating a stopper for accurate depth control, giving you the confidence that your screw holes will be consistent. For optimal performance, it is recommended to use the STAR-M T.C.T. Countersink with an Electric Power Drill or Cordless Drill with a power rating of over 14.4v, ensuring efficiency and ease of use for a wide range of projects.

FOR USE ON

- Hardwood
