

PRODUCT INFO

SAVAGE™ NO-SLIP STRAIGHT EDGES

DESCRIPTION

The Swanson Savage™ No Slip Straight Edge is a remarkable tool, combining simplicity with sophisticated features. It embodies the renowned accuracy, durability, and innovation that Savage™ is famous for, while prioritizing your safety. Every aspect of the Savage™ No Slip Straight Edge is designed to protect you during cutting tasks, ensuring that you never struggle or slip again when using a straight edge. Its No Slip Grip™ Backing and Thumb Saver™ Raised Edge provide added security and stability. Moreover, its Anodized Aerospace Aluminum construction guarantees durability. Additionally, the precision laser etching enhances accuracy. This tool is truly an innovative solution for all your cutting needs. These Straight Edges are available in 3 different lengths to suit your needs!
