

PRODUCT INFO
MINI RASP PLANE
AJP70764

DESCRIPTION

The Jorgensen Mini Rasp Plane boasts dense saw teeth with small openings, ensuring wood shavings glide through without clogging. Its blade, sharp and durable, makes woodworking effortless. This tool is compact, ideal for woodworking and crafting, easy for beginners to handle. With a stable blade attachment and replaceable blades, it guarantees long-term use. Weighing only 0.11lb (45g) and measuring 185mm long, it's ultra-portable with a convenient storage hole in the handle. Jorgensen simplifies woodworking tasks, a must-have for enthusiasts.

FEATURES

- Sharp Blade: prevent clogging, ensuring smooth wood planing without hassle.
- Small, portable, lightweight and easy to carry, with a convenient storage hole in the handle.
- Perfect for woodworking surface processing tasks, also suitable for DIY and crafts making.
- Replaceable blade, firmly attached to the front and back, ensuring stability in use.
