

PRODUCT INFO
MINI BLOCK PLANE
AJP70700

DESCRIPTION

Jorgensen's Mini Block Plane is small enough to be used in one hand and is designed for model making, instrument building, sculpting and other detail-oriented miniature work. It features a captive nut blade adjuster for precisely controlled depth of cut. The 25° bevelled blade is seated at 20° within the plane, giving an effective cutting angle of 45°. Featuring a heavy gauge (3mm) Pro O1 blade, they offer durability and minimal vibration for a solid cut. Made from ductile iron, they are exceptionally strong and resilient, while stress-relieving metal ensures long-lasting flatness.

FEATURES

- Heavy gauge (3mm) O1 blade is more durable.
- Ductile iron is far stronger and more resilient.
- Stress relieving metal ensures the machined casting will stay flat over time.
- Adjustment screw helps provide preferred cutting depths.

BARCODE: 044295707008

LENGTH: 88mm (3.5")

WIDTH: 32mm

BLADE LENGTH: 50mm

BLADE WIDTH: 22mm

BLADE THICKNESS: 3mm

WEIGHT: 198g
