

## PRODUCT INFO

# TROWEL AND SQUARE SMALL TOOLS

### DESCRIPTION

The Ragni Trowel and Square is an indispensable small tool engineered to perfection, boasting a dual-purpose design that combines a trowel at one end and a square edge at the other. Crafted from high-quality tempered steel, this versatile implement stands out with its flexible, forged carbon-sprung tempered steel composition. The precision in its design is evident, with a blade depth ranging from 1.5mm to 0.7mm at the trowel's tip, ensuring accuracy in every application. The 10mm thick rod provides stability and durability, while the square end blade tapers from 1.7mm to 1mm in depth, making it adaptable to various tasks. This tool guarantees maximum flexibility without the risk of distortion, making it a reliable companion for any job requiring precision and finesse.

| SKU      | BARCODE       | LENGTH | TROWEL WIDTH | SQUARE WIDTH | TROWEL THICKNESS | SQUARE THICKNESS | ROD THICKNESS | WEIGHT |
|----------|---------------|--------|--------------|--------------|------------------|------------------|---------------|--------|
| RG314-16 | 5037534903618 | 265mm  | 30mm         | 16mm         | 1.5-0.7mm        | 1.7-1mm          | 10mm          | 71g    |
| RG314-25 | 5037534903632 | 265mm  | 30mm         | 25mm         | 1.5-0.7mm        | 1.7-1mm          | 10mm          | 78g    |
