

PRODUCT INFO

CUTTING WHEEL FOR STEEL

ZE6002-0

DESCRIPTION

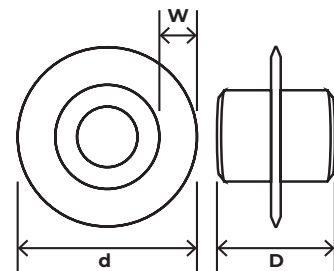

The Replacement Cutting Wheel for Steel Pipe Cutter ZE6050-1 is engineered for precision and efficiency. Crafted from durable alloy steel, its special cutting geometry ensures clean and accurate cuts. Suitable for steel and stainless steel pipes with up to 7mm wall thickness, its ICS "Instant Change System" allows for swift, one-handed replacement without requiring extra tools. This cutting wheel can be mounted in place of the rollers on the pipe cutter with the requirement of only two additional washers.

FEATURES

- Compatible with the ZE6050-1 Steel Pipe Cutter.
- Made of alloy steel, with special cutting geometry.
- Designed for steel and stainless steel pipes.
- Cuts up to 7mm wall thickness.
- Easy blade replacement with one-hand operation.
- It is possible to mount this cutting wheel instead of the rollers on the pipe cutter, only two additional washers are required.
