

PRODUCT INFO  
**WALLBOARD SAW**  
**KW420-150**

## DESCRIPTION

The Kanzawa Wallboard Saw stands out as a superior tool with its three-pointed auger-tip, ensuring effortless penetration into various materials. Its robust push-cut 150mm long blade enhances strength, making it an ideal choice for tasks involving plaster board, asbestos slates, foam concrete, wall-board, plywood, and more. Designed to facilitate drilling work, particularly in electrical, plumbing, and ventilation applications, this Japanese-made saw guarantees precision and efficiency. The quality and durability of its teeth ensure lasting performance, solidifying its reputation as a reliable companion for professionals and DIY enthusiasts alike. Crafted with meticulous attention to detail, the Kanzawa Wallboard Saw exemplifies Japanese precision and excellence.
