

PRODUCT INFO

POCKET RASP PLANE

AJP70760

DESCRIPTION

The Jorgensen rasp plane stands out with its die-cast alloy body, ensuring a lightweight yet durable tool. Its fine-polished, sharp blade is not only long-lasting but also replaceable, making maintenance effortless. With a user-friendly design for one-handed use and a tool-free blade change mechanism, it's perfect for tasks like end-grain work, sheet-rocking, and smoothing laminate edges. Versatile enough for drywall, PVC, cement board, and wood, this rasp plane offers precision and convenience in various applications.

FEATURES

- Designed for one-handed use.
- Manufactured with die-cast alloy body.
- Fitted with a replaceable 6in fine cut blade.
- Tool-free blade change: Simple twist knob for quick replacements.
- Suitable for drywall, PVC, cement board, and wood.
- Ideal for end-grain work, sheet-rocking and smoothing edges of laminates.
