

PRODUCT INFO

WATER POWERED DRAIN CLEANING KIT DKVIP1

DESCRIPTION

The Drain King water-powered drain cleaning kit is an efficient and versatile solution for unclogging blocked drains. It includes a **1"-2" drain cleaning bladder**, **plastic faucet adapter**, and a **crossbar drain adapter**. The crossbar drain adapter is specifically designed to tackle kitchen sinks and drains that have a crossbar or a drain screen. The plastic faucet adapter is also an essential component that enables users to connect the water hose to an interior faucet, providing easy water access. Drain King is the original water-powered drain cleaner on the market and features a water pulsating valve that allows for quick and hassle-free unclogging of blocked drains. It can inflate with a minimum pressure of 40 PSI up to a maximum of 80 PSI. Moreover, this product is made in the USA and comes with a 1-year warranty, ensuring its quality and durability.
