

PRODUCT INFO

# INFLATABLE TEST PLUGS

## PT2009 & PT9007

### DESCRIPTION

The Plumtest Inflatable Test Plug is designed to seal and block PVC pipes for repair work, effectively redirecting and regulating flow downstream as needed. Suitable for use in inspection shafts, these plugs features peripheral ribs for an air-tight seal and secure grip on the pipe. It comes fitted with a Schroeder valve for quick pressure release and can be easily inflated using a hand pump or car pump. Note: do not exceed the max. pressure capacity. Ideal for areas with limited access, this genuine Plumtest product ensures reliable performance and ease of use.

### FEATURES

- Seals and blocks pipes for repair work.
- Redirects and regulates downstream flow.
- Can be use in inspection shafts.
- Peripheral ribs provide an air-tight seal and grip.
- Schrader valve for quick pressure release.
- Easily inflated with a hand pump or car pump.
- Ideal for use in areas where access is smaller than the test diameter.

#### PT2009

**BARCODE:** 9348099002590

**SIZE:** 100mm (4")

**RANGE:** 90-110mm

**MAX INFLATION:** 10psi / 70kpa

**HOSE LENGTH:** 2.5m

**JOINT TYPE:** Schroeder Valve

**WEIGHT:** 460g

#### PT9007

**BARCODE:** 9348099004006

**SIZE:** 150mm (6")

**RANGE:** 140-160mm

**MAX INFLATION:** 10psi / 70kpa

**HOSE LENGTH:** 2.5m

**JOINT TYPE:** Schroeder Valve

**WEIGHT:** 800g
