

PRODUCT INFO

FLAT SCRAPER BLADE

HDX50-50

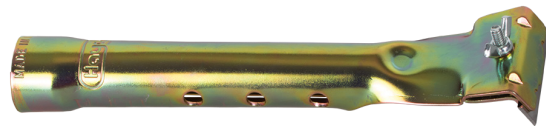

DESCRIPTION

The Haydn Tungsten Carbide Tipped Flat Scraper Blade is a replacement blade for the HD50 Flat Scraper. The blade is used to effectively remove old paint, varnish, and glue from any wooden surface. The blade is 50mm wide, for an increased surface coverage. This scraper is specifically designed for wooden surfaces, and its tungsten carbide tip ensures that it maintains its scraping edge for optimal performance.

USE WITH

HD50 Tungsten Carbide Tipped Flat Scraper
