

PRODUCT INFO

# 265mm SPEED HAND SAW BLADE

## TMXP26

### DESCRIPTION

Introducing the Topman Pipe Saw Replacement Blade (Speed Hand Saw), designed for precision and efficiency. Crafted at 265mm length with 14 teeth per inch (tpi), it ensures swift, accurate cuts through wood - great for fine woodworking, furniture, craft and model making. This blade boasts a pull-stroke action, enhancing cutting speed and accuracy. Its innovative Japanese saw tooth design prevents clogging, thanks to its impulse-hardened edges, ensuring durability and prolonged sharpness. The screwknob interchangeable system facilitates easy attachment, while the surface treatment with Ni-P plating prevents rust, ensuring longevity and reliability for every task at hand.

### FEATURES

- Great for fine woodworking, furniture, craft and model making.
- High quality flexible & durable thin blade.
- Clean, accurate and controlled cuts.
- Diamond ground and impulse hardened teeth.
- Rust resistant.
- The best selling pull stroke saw!
