

## PRODUCT INFO

# BIG-T MEASURING TAPE

## FSBT8M

### DESCRIPTION

The Fisco Big-T Measuring Tape is designed for measuring more quickly, easily and reliably. Its rubber-protected case with a patented shock absorber is designed to survive heavy on-site use, while the ergonomic shape of the case makes the tape easy to handle. The superior brake control provides maximum holding power, and the clear-view end-hook allows the blade to be read right up to the tip. Additionally, the rubber grip tips locate and hold the blade tip firmly when hooking on, and the easy 100mm inside measurement makes add-ons a breeze. The unique snap-in quick-release belt clip holster ensures easy portability. The blade is made of "Matt Coat" carbon spring steel, hardened, tempered, and concaved to enable long extension, and it is polyester coated for improved abrasive resistance. Graduated in millimeters with red numbers at every 100 millimeters, the blade is accurate to EC Class I. Made in Britain, this measuring tape is a reliable and durable tool for all your measurement needs.

### FEATURES

- Carbon spring steel blade, accurate to EC Class I.
- Made in Britain.
- Rubber protected case with patented shock absorber.
- Superior brake control with maximum holding power.
- Unique snap-in quick-release belt clip holster.
- Clear-view end-hook with rubber grip tip.

**BARCODE:** 5013623500623

**BLADE LENGTH:** 8m

**BLADE WIDTH:** 25mm

**GRADUATIONS:** mm

**EC ACCURACY CLASS:** I

**BLADE TYPE:** Carbon spring steel

**DIMENSIONS:** 100mm x 95mm x 68mm

**WEIGHT:** 470g
