DRYWALL SCREW GUARD

GFB117

DESCRIPTION

The GFB Drywall Screw Guard features a Phillips Insert Driver Bit (PH2 x 25mm) with an integrated depth guard, ideal for driving screws flush into plasterboard without causing damage. Made from high-quality steel and tempered twice under intense heat, these Industrial Tough bits offer exceptional strength and durability. Their magnetic feature enhances usability, securely gripping screws during intricate tasks, making them a reliable choice for professionals seeking precision and efficiency in drywall installation. Whether for construction or renovation, the GFB Drywall Screw Guard ensures a flawless finish, protecting your surfaces while providing superior performance.

FEATURES

- Depth guard prevents damage to plasterboard surface.
- High-quality steel construction ensures durability.
- Tempered twice under intense heat for strength.
- Industrial Tough design for longevity and reliability.
- Magnetic feature aids in secure screw handling.
