SQUARE DRIVE TO HEX DRIVE ADAPTOR

GFB398

DESCRIPTION

Introducing the GFB Square Drive Bit Adaptor, crafted from high-tensile steel for unmatched durability and longevity. This adaptor transforms your 1/2" impact wrench into a versatile 1/4" hex shank driver, instantly expanding your tool capabilities. Its quick-release mechanism facilitates effortless bit swaps with just one hand, enhancing efficiency on the job. GFB Industrial Tough adaptors are specifically designed & manufactured to Australian conditions.

FEATURES

- Converts 1/2" impact wrench to 1/4" hex shank driver.
- Made from high tensile steel for durability and longevity.
- Features easy one-handed quick-release mechanism for fast bit changes.
- Industrial-grade design ensures precision and toughness.
- Manufactured to the highest specifications.
