

# StealthMounts®

## Battery Mounts

PROUDLY MADE IN THE UNITED KINGDOM

### How to use

Mount to wall or surface using suitable fastenings such as screws or rivets (not supplied). To make installation easier, use a small piece of tape across rear of mount to hold on surface in desired location. Leave sufficient space between mounts for batteries intended to be stored, including access to release & slide out. Once fitted, slide battery in to mount to lock in place. To remove battery, press battery release and slide out.

### Precautions

Do not over-tighten fixings. Check mount integrity prior to use and do not use if damaged. Harsh environments may reduce strength of mount. Mount does not guarantee safe or compliant storage of battery, local regulations must be observed where applicable. Fit in a suitable location where failure (such as broken mount) cannot cause harm or damage if battery falls. Do not use at height. Liability limited to MSRP of this product. Registered trademarks are property of their respective owners.
