CONSTRUCTOR STRAP WRENCH

BOA12002

DESCRIPTION

The Boa Constrictor Strap Wrenches are BOA's original, multi award winning, and best on the market product worldwide. These constrictors are the perfect tool for industrial, workshop/garage applications, automotive, large objects, and DIY use. This wrench comes with its original polypropylene handle form with soft grip for extra comfort. The Boa Constrictor can be used on many irregular shapes for effortless turning without scratching or damaging surfaces. This strap provides over 2,000lb of pressure due to the strong and flexible braided rubber strap, which fits into a slot in the handle of the tool and provides a perfect fit on the workpiece. This tool can also be safely used on any material, including glass, plastic, wood, chrome, and many other sensitive surfaces.

FEATURES

- Will not mark or scratch surfaces.
- Reinforced straps have a strong tensile breaking pressure.
- Can grip onto any shaped item for effortless turning.
- Can be used open or tighten things.
- Soft grip polypropylene handle.
- Great for industrial and DIY uses.
