

## PRODUCT INFO

# ALUMINIUM CONSTRICTOR STRAP

### BOA13010

## DESCRIPTION

The Boa Aluminium Constrictor Strap Wrenches are BOA's largest constrictor and is the perfect tool for heavy duty applications. These constrictors are great for professional and construction industries, large machinery, automotive, and factories. This wrench comes with an aluminium handle for durability and strength. The Boa Constrictor can be used on many irregular shapes for effortless turning without scratching or damaging surfaces. This strap provides over 2,000lb of pressure due to the strong and flexible braided rubber strap, which fits into a slot in the handle of the tool and provides a perfect fit on the workpiece. This tool can also be safely used on any material, including glass, plastic, wood, chrome, and many other sensitive surfaces.

## FEATURES

- Will not mark or scratch surfaces.
- Reinforced straps have a strong tensile breaking pressure.
- Can grip onto any shaped item for effortless turning.
- Can be used open or tighten things.
- Heavy-duty Aluminium handle.
- Great for professional and construction industries.
