LONG REACH END CUTTING PLIER

CH748

DESCRIPTION

The Channellock® Long Reach Pliers End Cutter are the perfect solution for tackling long reach applications and tight spaces. With precision and efficiency, these pliers excel in handling split rings and springs. Crafted from high-carbon U.S. steel, they guarantee unmatched performance and durability on the job, while the special rust-prevention coating ensures their longevity. To top it off, the Channellock Blue® grips offer exceptional comfort during extended use. Whether you're a professional or a DIY enthusiast, these pliers provide the reliable support needed to conquer challenging tasks with ease and finesse.
