

## PRODUCT INFO

# 710mm HAND SAW - CONCRETE FX GM167H28

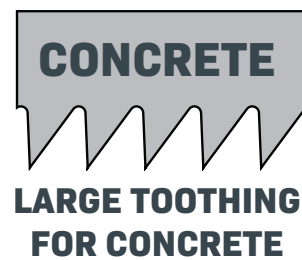

### DESCRIPTION

Introducing the G-MAN Exclusive Concrete FX Hand Saw, designed specifically for handling cellular blocks and lightweight materials with ease. Equipped with coarse, hardpoint teeth, this saw boasts remarkable longevity, staying sharper for 3-5 times longer than conventional alternatives. The hardened teeth make resharping impossible, ensuring consistent performance. With its ergonomic soft and safe grip handle, this saw guarantees excellent quality and swift cutting. Additionally, the FX line features a thicker blade material that minimizes vibrations, providing enhanced stability and precision. Crafted with pride in Sweden, this saw is a testament to superior craftsmanship.

### FEATURES
