

PRODUCT INFO

SAVAGE™ COMBINATION SQUARE

SWSVCM233

DESCRIPTION

The Swanson Savage™ Combination Square is a versatile tool that excels in various carpentry tasks such as ripping, crosscutting, mitering, and notching. Its head features fences at 90 and 45 degrees, sliding effortlessly along the stainless steel blade while securely locking in place. This allows for precise distance transfer and reliable line marking using a pencil. Alongside the claw hammer, pencil, and tape, the Combination Square is an essential tool for every carpenter, conveniently fitting in their back pocket. Crafted with quality in mind, it boasts features such as chemical etching, precision machined surfaces, a brass tightening bolt, a scribe all, an acrylic block vial, and a Savage™ strength frame made of aerospace aluminum.

FEATURES

- Chemical Etching
- Precision Machined Surfaces
- Stainless Steel Blade
- Brass Tightening Bolt and Scribe All
- Acrylic Block Vial
- Savage™ Strength Frame - Aerospace Aluminum
- Metric markings
