ADJUSTABLE WRENCH WITH INSULATED HANDLE MOD. 92W-1000V

XTRA
Capacity

DESCRIPTION

Introducing the Irega Adjustable Wrench with Insulated Handle, designed for tasks involving voltage or proximity to voltage installations at up to 1,000V AC and 1,500V DC. Available in sizes ranging from 6" to 12", this model boasts an impressive 25% XTRA capacity, enabling operation across a broader spectrum of nuts and bolts without changing wrench sizes. Its four-thread knurl ensures a secure grip, while its lightweight and compact design delivers exceptional ergonomics and performance. The handle features three layers of "Plastisol" insulation in distinct colors - Red (SAFETY), Orange (CAUTION), and Yellow (STOP USING) - facilitating easy inspection of insulation condition. This flame-retardant, insulated material guarantees safety within temperatures spanning -20°C to 70°C. Crafted entirely in Spain, it's a testament to quality and innovation.

SKU	BARCODE	LENGTH (L)	OPENING (A)	WIDTH (B)	DEPTH 1 (S)	DEPTH 2 (T)	DEPTH 3 (U) (MIN-MAX)	WEIGHT
IG92CP-06	8410285041060	161mm (6")	24mm (15/16")	50mm	10.8mm	5.3mm	17.5mm	185g
