ROMAN OGEE ROUTER BITS WITH BALL BEARING

DESCRIPTION

The Econocut Roman Ogee Bit with Ball Bearing Guide is an essential tool for creating exquisite S-shaped profiles in various applications such as molding, furniture, signs, and more. This versatile bit combines straight edges at the top and bottom with a graceful convex curve, resulting in a stunning decorative effect. Equipped with a ball bearing guide, it ensures precise and controlled routing. With its two-flute design, it delivers a smoother cutting action, while its carbide-tipped construction guarantees long-lasting sharpness, superior finish, and cleaner cuts. For the handyman and DIY enthusiasts.
